

Grade LT1™ Thermocouple Protection Tube Specifications & Prices

Description

LT1™ MetalCeramic Thermocouple Protection tube is a hard, abrasion-resistant, chromium and aluminum oxide composite. It has superior oxidation resistance to 2500 °F (1370 °C), thermal conductivity comparable to stainless steel, and good resistance to wetting by most liquid metals.

Standard Tube Dimensions and Tolerances

Dim	English		Metric		Notes
OD	7/8"	±1/16"	22.2 mm	±1.6 mm	
ID	5/8"	+1/16" -3/32"	15.9 mm	+1.6 mm -2.4 mm	ID will pass a 33/64" Ø x 2" long (13.1 Ø x 50.8 long) probe through the full length of the tube
Length	A	±1/16"	A	±1.6 mm	
Straightness: Straight within 3/16" per foot of length, measured chord to arc					

Connector Type A

EMT connector, gland compression, zinc plated steel body with zinc plated malleable iron nut, cemented to tube.
